Applied Ergonomics

Index to volume 13, nos 1–4, pp 1–320

Abstracts

Abstracts 65, 132, 224, 305

Authors

Beese, H., and Moggridge, W.
485 1170 – Can I help you? 7
Blom, L.
Physiotherapists in ergonomics 289
Bose, K.S., Ghosh, A.K., and Ganguli, S.
Metabolic energy demands and optimal walking speed in post-polio subjects with lower limb afflictions 259
Bowker, D.O., and Kintz, R.T.
Accommodation response during a prolonged visual search task 55
Pruce, M., and Foster, J.J.
Reading upper and lower case on Viewdata 145
Cairney, P., and Sless, D.
Communication effectiveness of symbolic safety signs with different user groups 91
Caro, P.W., and Rolfe, J.M.
Determining the training effectiveness of flight simulators 243
Carlsöö, S.
The effect of vibration on the skeleton, joints and muscles 251
Chatterjee, S.K., Nag, P.K., Panikar, J.T.
Malvankar, M.G., and Pradhan, C.K.
Performance evaluation of lower extremity disabled people with reference to hand-cranked tricycle propulsion 171
Coury, B.G., and Drury, C.G.
A methodology for chair evaluation 195
Dartnell, A., and Moore, T.G.
Human factors of a microelectronic product: the central heating timer/programmer 15
Drury, C.G., and Coury, B.G.
A methodology for chair evaluation 195
Foster, J.J., and Bruce, M.
Reading upper and lower case on Viewdata 145
Ganguli, S., Ghosh, A.K., and Bose, K.S.
Metabolic energy demands and optimal walking speed in post-polio subjects with lower limb afflictions 259
Ganguli, A.K., and Sen, R.N.
Preliminary investigations into the loco-man factor on the Indian railways 107
Ghosh, A.K., Ganguli, S., and Bose, K.S.
Metabolic energy demands and optimal walking speed in post-polio subjects with lower limb afflictions 259
Gregory, K.
Determining the 'consumer object' 11
Grieve, D.W., Pheasant, S.T., Rubin, T.,
and Thompson, S.J.
Vector representations of human strength in whole body exertion 139
Haider, E., Luczak, H., and Rohmert, W.
Ergonomics investigations of work-places in a police command-control centre equipped with TV displays 163
Hanada, K., Mihira, K., and Kamisasa, H.
The effect of unevenly distributed thermal stimuli on the sensation of warmth and coolness 49
Handyside, J., and Webb, R.D.G.
Brick handling: A case study 191
Holzmann, P.
ARBAN – A new method for analysis of ergonomic effort 82
Jokl, M.V.
The effect of the environment on human performance 269
Kamisasa, H., Hanada, K., and Mihira, K.
The effect of unevenly distributed thermal stimuli on the sensation of warmth and coolness 49
Kintz, R.T., and Bowker, D.O.
Accommodation response during a prolonged visual search task 55
Kleeman, W.B., Jr.
The need for ergonomics expertise in office design 125
Klein, G.A., and Weitzenfeld, J.
The use of analogues in comparability analysis 99
Knight, J.L., Salvendy, G., McCabe, G.P.,
Sanders, S.G., and McCormick, E.J.
Impact of personality and intelligence on job satisfaction of assembly line and bench work 293
Laughery, K.R., Jr.
An application of mathematical programming concepts to behavioural research design 263
Luczak, H., Haider, E., and Rohmert, W.
Ergonomics investigations of work-places in a police command-control centre equipped with TV displays 163
McCabe, G.P., Salvendy, G., Sanders, S.G.,
Knight, J.L., and McCormick, E.J.
Impact of personality and intelligence on job satisfaction of assembly line and bench work – an industrial study 293
McCormick, E.J., Salvendy, G.,
McCabe, G.P., Sanders, S.G., and Knight, J.L.
Impact of personality and intelligence on job satisfaction of assembly line and bench work – an industrial study 293
Malvankar, M.G., Nag, P.K., Panikar, J.T.,
Pradhan, C.K., and Chatterjee, S.K.
Performance evaluation of lower extremity disabled people with reference to hand-cranked tricycle propulsion 171
Meister, D.
The roles of human factors in system development 119
Meister D.
Human factors problems and solutions 219
Meister, D.
The present and future of human factors 281
Mihira, K., Hanada, K., and Kamisasa, H.
The effect of unevenly distributed thermal stimuli on the sensation of warmth and coolness 49
Moggridge, W., and Beese, M.
485 1170 – Can I help you? 7
Moore, T.G., and Dartnall, A.
Human factors of a microelectronic product: the central heating timer/programmer 15
Nag, P.K., Panikar, J.T., Malvankar, M.G.,
Pradhan, C.K., and Chatterjee, S.K.
Performance evaluation of lower extremity disabled people with reference to hand-cranked tricycle propulsion 171
Panikar, J.T., Nag, P.K., Malvankar, M.G.,
Pradhan, C.K., and Chatterjee, S.K.
Performance evaluation of lower extremity disabled people with reference to hand-cranked tricycle propulsion 171
Parsons, S.O., and Seminara, J.L.
Nuclear power plant maintainability 177
Parthasarathy, S.
Ergonomic considerations in the design of interactive languages for process control 129
Pheasant, S.T., Grieve, D.W., Rubin, T.,
and Thompson, S.J.
Vector representations of human strength in whole body exertion 139
Pilitsis, J., Siegel, A.I., and Wolf, J.J.
A new method for the scientific layout of workspaces 87
Poulton, E.C.
Biases in quantitative judgements 31
Pradhan, C.K., Nag, P.K., Panikar, J.T.,
Malvankar, M.G., and Chatterjee, S.K.
Performance evaluation of lower extremity disabled people with reference to hand-cranked tricycle propulsion 171
Procrustes 54, 118, 190, 303
Rohmert, W., Haider, E., and Luczak, H.
Ergonomics investigations of work-places in a police command-control centre equipped with TV displays 163
Rolfe, J.M., and Caro, C.W.
Determining the training effectiveness of flight simulators 243
Rotter, T.
The noise factor in railway locomotives 213
Rubin, T., Pheasant S.T., Grieve, D.W.,
and Thompson, S.J.
Vector representations of human strength in whole body exertion 139
Salvendy, G., McCabe, G.P., Sanders, S.G.,
Knight, J.L., and McCormick, E.J.
Impact of personality and intelligence on job satisfaction of assembly line and bench work – an industrial study 293
Sanders, S.G., Salvendy, G., McCabe, G.P.,
Knight, J.L., and McCormick, E.J.
Impact of personality and intelligence on job satisfaction of assembly line and bench work – an industrial study 293
Sandison, A.
Citation of bibliographical references (Letter to editor) 304
Seminara, J.L.
Bulgarian ergonomics revisited 43
Seminara, J.L., and Parsons, S.O.
Nuclear power plant maintainability 177
Sen, R.N., and Ganguli, A.K.
Preliminary investigations into the loco-man factor on the Indian railways 107
Siegel, A.I., Wolfe, J.J., and Pilitsis, J.
A new method for the scientific layout of workspaces 87
Sless, D., and Cairney, P.
Communication effectiveness of symbolic safety signs with different user groups 91
Springer, T.J.
VDT workstations: A comparative evaluation of alternatives 211
Thompson, S.J., Pheasant, S.T.,
Grieve, D.W., and Rubin, T.
Vector representations of human strength in whole body exertion 139
Wall, R.A.
Citation of bibliographical references: A librarian's view 105
W·ne, C.A.
Designing out accidents – first understand the problem 2
Waterworth, ' A.
Man-machine speech 'dialogue acts' 203
Webb, R.D.G., and Handyside, J.
Brick handling: A case study 191
Weitzenfeld, J., and Klein, G.A.
The use of analogues in comparability analysis 99
Whittington, C., and Wilson, J.R.
An overview of consumer ergonomics in the United Kingdom 25
Wilson, J.R., and Whittington, C.
An overview of consumer ergonomics in the United Kingdom 25
Wolf, J.J., Siegel, A.I., and Pilitsis, J.
A new method for the scientific layout of workspaces 87

Papers

485 1170 – Can I help you?
H. Beese and W. Moggridge 7
Accommodation response during a prolonged visual search task
R.T. Kintz and D.O. Bowker 55
Application of mathematical programming concepts to behavioural research design, An
K.R. Laughery, Jr 263
ARBAN – A new method for analysis of ergonomic effort
P. Holzmann 82
Biases in quantitative judgements
E.C. Poulton 31
Brick handling: A case study
R.D.G. Webb and J. Handyside 191
Bulgarian ergonomics revisited
J.L. Seminara 43
Citation of bibliographical references: A librarian's view
R.A. Wall 105
Communication effectiveness of symbolic safety signs with different user groups
P. Cairney and D. Sless 91
Consumer Ergonomics – a series of articles on a special theme
C. Whittington and J. Wilson 2
Designing out accidents – first understand the problem
C.A. Warne 2
Determining the 'consumer object'
K. Gregory 11
Determining the training effectiveness of flight simulators: Some basic issues and practical developments
J.M. Rolfe and P.W. Caro 243
Effect of vibration on the skeleton, joints and muscles, The
S. Carlsöö 251
Effect of the environment on human performance, The
M.V. Jokl 269
Effect of unevenly distributed thermal stimuli on the sensation of warmth and coolness, The
K. Hanada, K. Mihira and H. Kamisasa 49
Ergonomic considerations in the design of interactive languages for process control
S. Parthasarathy 129
Ergonomics investigations of workplaces in a police command control centre equipped with TV displays
E. Haider, H. Luczak and W. Rohmert 163
Human factors problems and solutions
D. Meister 219
Human factors of a microelectronic product: the central heating timer/programmer
T.G. Moore and A. Dartnell 15
Impact of personality and intelligence on job satisfaction of assembly line and bench work – an industrial study
G. Salvendy, G.P. McCabe, S.G. Sanders, J.L. Knight, and E.J. McCormick 293
Man-machine speech 'dialogue acts'
J.A. Waterworth 203
Metabolic energy demand and optimal walking speed in post-polio subjects with lower limb afflictions
A.K. Ghosh, S. Ganguli, and K.S. Bose 259
Methodology for chair evaluation, A
C.G. Drury and B.G. Coury 195
Need for ergonomics expertise in office design, The
W.B. Kleeman, Jr 125
New method for the scientific layout of workspaces, A
A.I. Siegel, J.J. Wolf and J. Pilitsis 87
Noise factor in railway locomotives, The
T. Rotter 213
Nuclear power plant maintainability
J.L. Seminara and S.O. Parsons 177
Overview of consumer ergonomics in the United Kingdom, An
J.R. Wilson and C. Whittington 25
Performance evaluation of lower extremity disabled people with reference to hand-cranked tricycle propulsion
P.K. Nag, J.T. Panikar, M.G. Malvankar, C.K. Pradhan, and S.K. Chatterjee 171
Physiotherapists in ergonomics
L. Blom and A. Hauch 289
Preliminary investigations into the loco-man factor on the Indian Railways
R.N. Sen and A.K. Ganguli 107
Present and future of human factors, The
D. Meister 281
Reading upper and lower case on Viewdata
J.J. Foster and M. Bruce 145
Role of human factors in system development, The
D. Meister 119
Use of analogues in comparability analysis, The
G.A. Klein and J. Weitzenfeld 99
VDT Workstations: A comparative evaluation of alternatives
T.J. Springer 211
Vector representations of human strength in whole body exertion
S.T. Pheasant, D.W. Grieve, T. Rubin and S.J. Thompson 139

Books

Ergonomic aspects of visual display terminals
E. Grandjean and E. Vigliani 61
Ergonomics at work
David J. Oborne 300
Face to file communication: A psychological approach to information systems
B. Christie 151
Groups at work
R. Payne and C.L. Cooper (Eds) 63
Handbook of occupational hygiene
B. Harvey, G. Crockford and S. Silk 63
Human factors in lighting
P.R. Boyce 150
Human Factors: Ergonomics for building and construction
Martin Helander (Ed) 151
Industrial productivity: A psychological perspective
M.M. Gruneberg and D.J. Oborne 301
Machine pacing and occupational stress
G. Salvendy and M.J. Smith 150
Making organisations humane and productive
H. Metzler and W.R. Nord 209
Manned systems design: Methods, equipment and applications
J. Moraal and K.F. Kraiss (Eds) 208
Précis de Physiologie du Travail: Notions d'ergonomie
J. Scherrer and Collaborators 209
Psychology and industrial productivity: A Reader
M.M. Gruneberg and D.J. Oborne 62
Stress, work design and productivity
E.N. Corlett and J. Richardson (Eds) 300
The challenge of interior design
Walter B. Kleeman, Jr 152
The psychology of vigilance
D.R. Davies and R. Parasuraman 301
Thermal control of buildings
D.J. Fisk 208
Working life: A social science contribution to work reform
B. Gardell and G. Johansson 60

Conferences

Ergonomics Society Annual Conference 1982. 29 March–1 April, University of Sussex 231
Human Factors Society 25th Annual Meeting. 12–16 October 1981, Rochester, USA 73
Slipping, tripping and falling accidents. 2 April 1982, University of Surrey, Guildford 128

Letter to the editor

Citation of bibliographical references
A. Sandison 304
Symbol interpretation
R. Gill 223
